# About iSQUARE

Having achieved **ISO 27001** certified company and having complied with all statutory regulations, iSQUARE serves as a reliable software development company. We at iSQUARE have a team of skillful developers who have expertise in the latest frameworks including angular and Golang. We have over **50+** employees and professional teams with over **20+** years of experience in developing web and mobile applications.

# The Hearing Aid Industry and Its Challenges

- ✓ The rapid evolution of hearing aid technology requires hearing aid businesses to stay updated with the latest advancements.
- ✓ With growing awareness and demand for personalized healthcare services, customers expect a higher level of customization.
- ✓ The complexity of managing patient data and ensuring privacy and security.
- ✓ Hearing aid businesses often face operational challenges such as manual paperwork and inefficient inventory management.
- ✓ Effectively managing patient information, appointments, and communication. ❖

iSQUARE's Hearing Aid Business Software is designed to specifically address these pain points and empower hearing aid businesses to overcome these challenges effectively.

# Introducing Our Robust Hearing Aid Software

- ▶ Our hearing care software is a comprehensive platform that comes with advanced features and intuitive interfaces to optimize every aspect of the client journey, from initial assessments to ongoing follow-ups.
- ▶ Designed specifically for hearing aid businesses, our software has everything you need to run a successful operation. You can easily track doctor incentives information, review reports, sales conversion reports, and other essential reports with advanced filters.
- ▶ It's all provided through a single platform, eliminating the need for practices to continue juggling countless software systems.

# How Our Application Helps to Automate Your Hearing Aid Business?

# Our Hearing Care Software Earns Praise

Hear the success stories of our happy customers who enhanced their business with us!

“iSQUARE helped me to arrive at an ideal ERP solution which was extensively helpful. The ERP solution they provided vastly saved my time and manual works. I thank Jafer and team for understanding my requirement and delivering a perfect solution.”

Sounds Good "Managing Director"

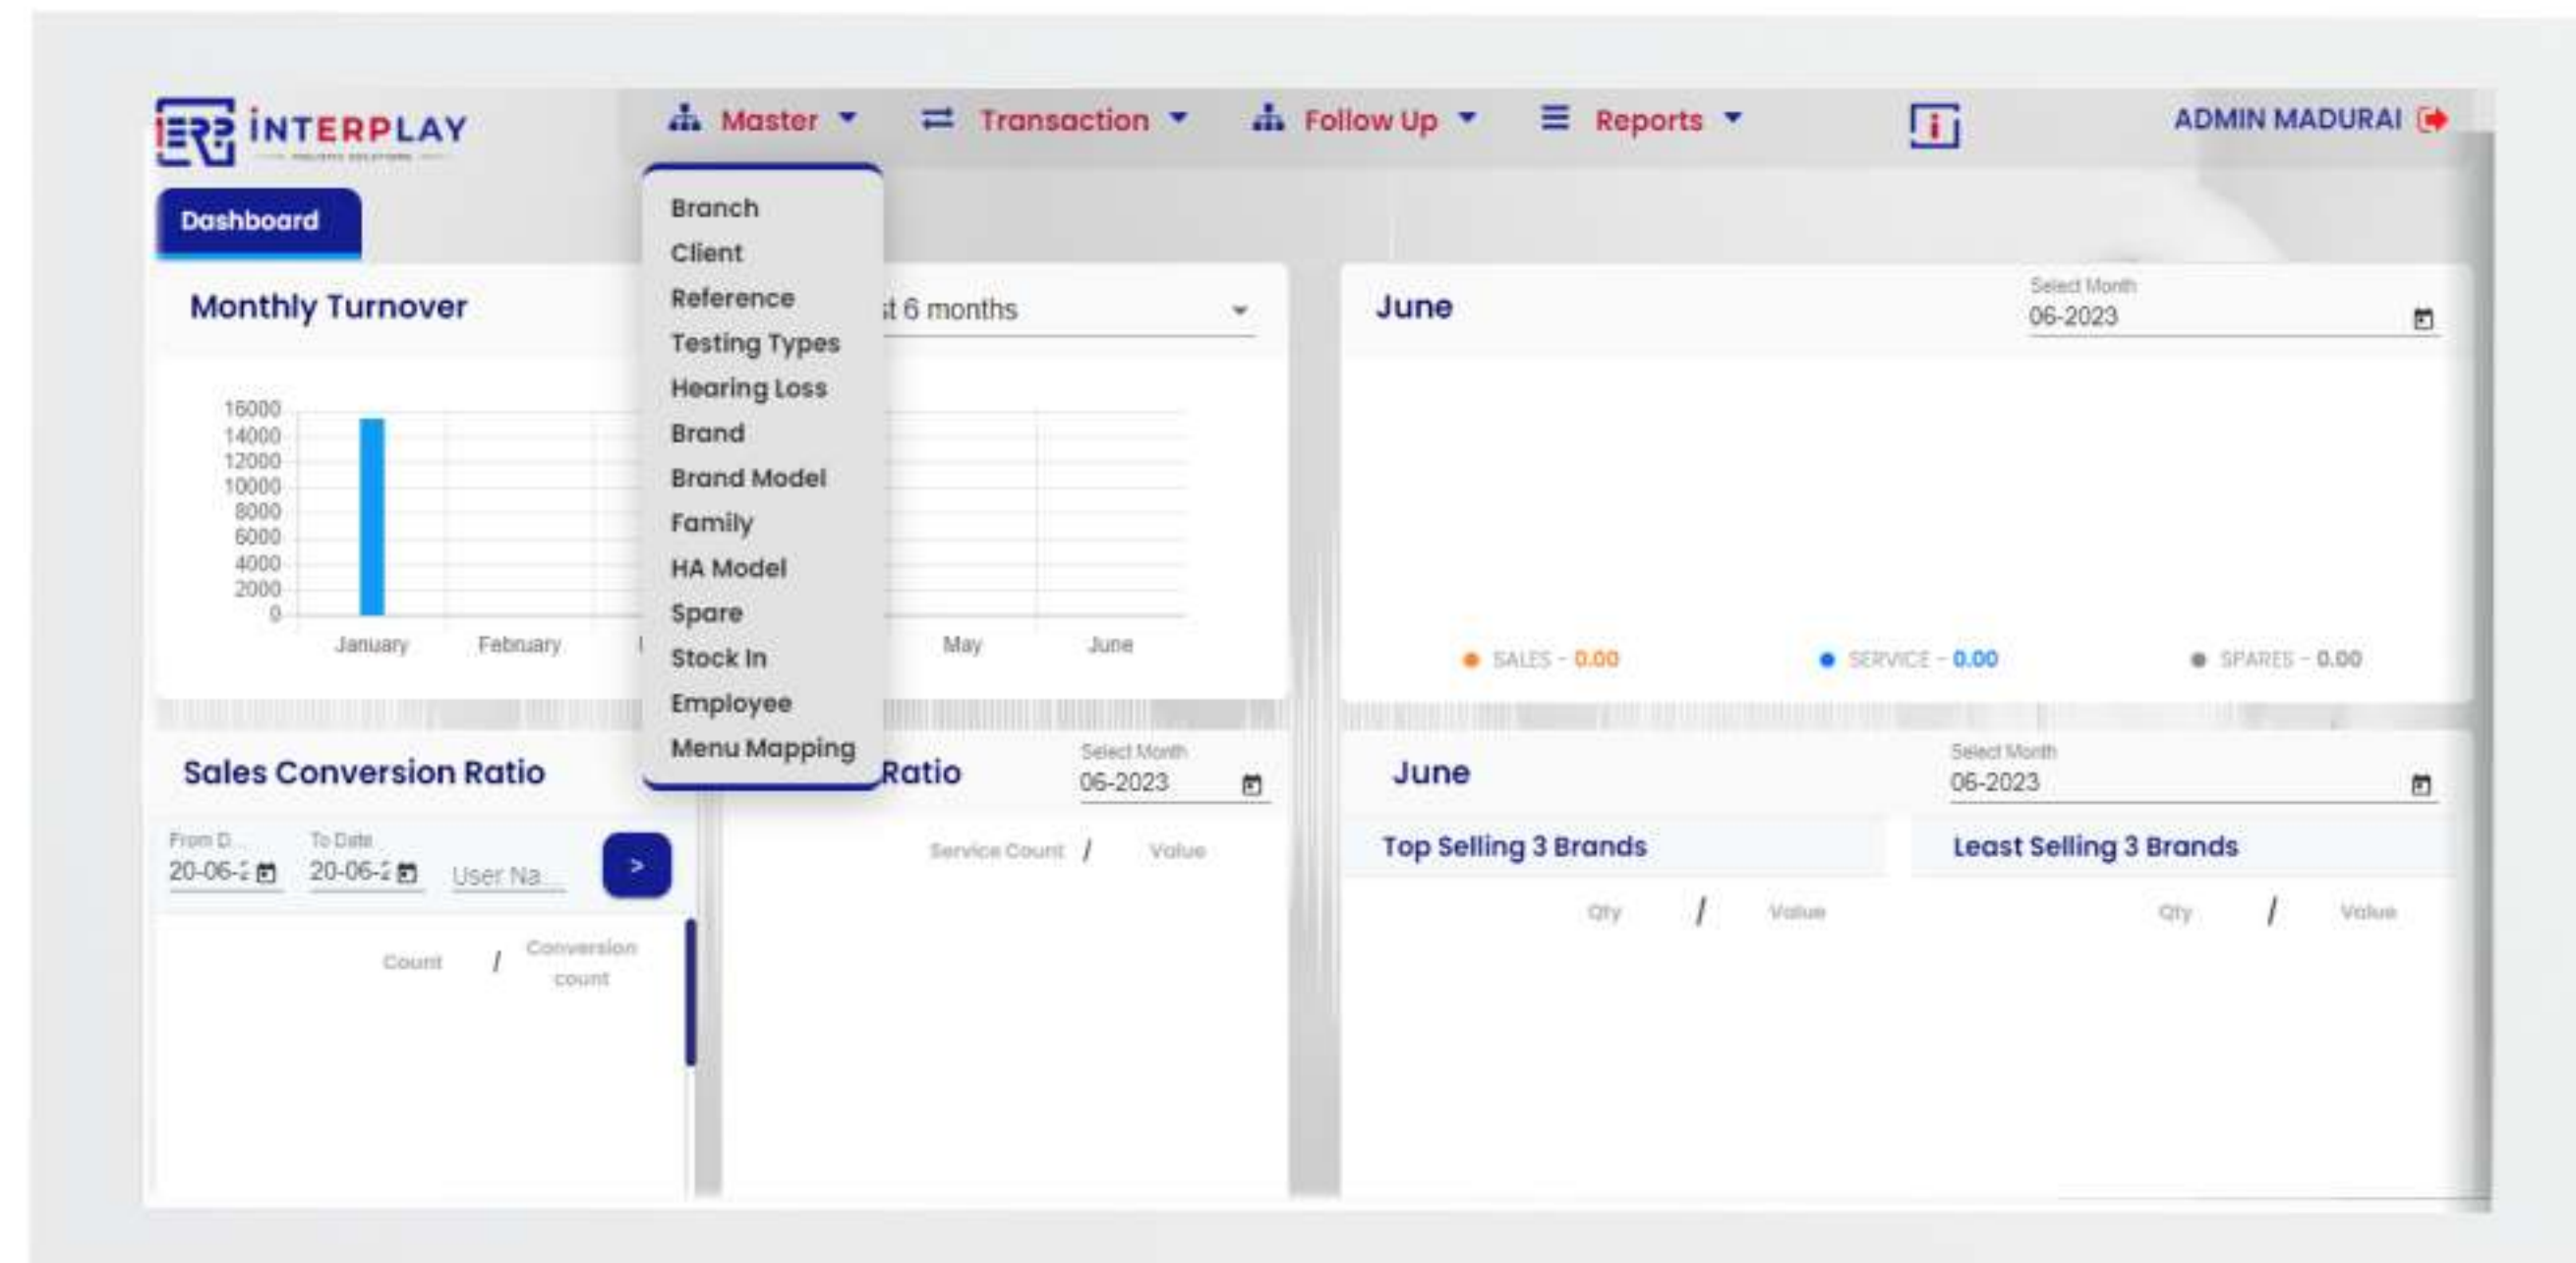

“iSQUARE did an excellent job. They are very professional, and also skilled at understanding business aspects. Pradeep was assigned as a Business Analyst, and I really appreciate his knowledge, grasp of the customer's perspective on the project, understanding customer perspective on the project and come up with very valid suggestions.”

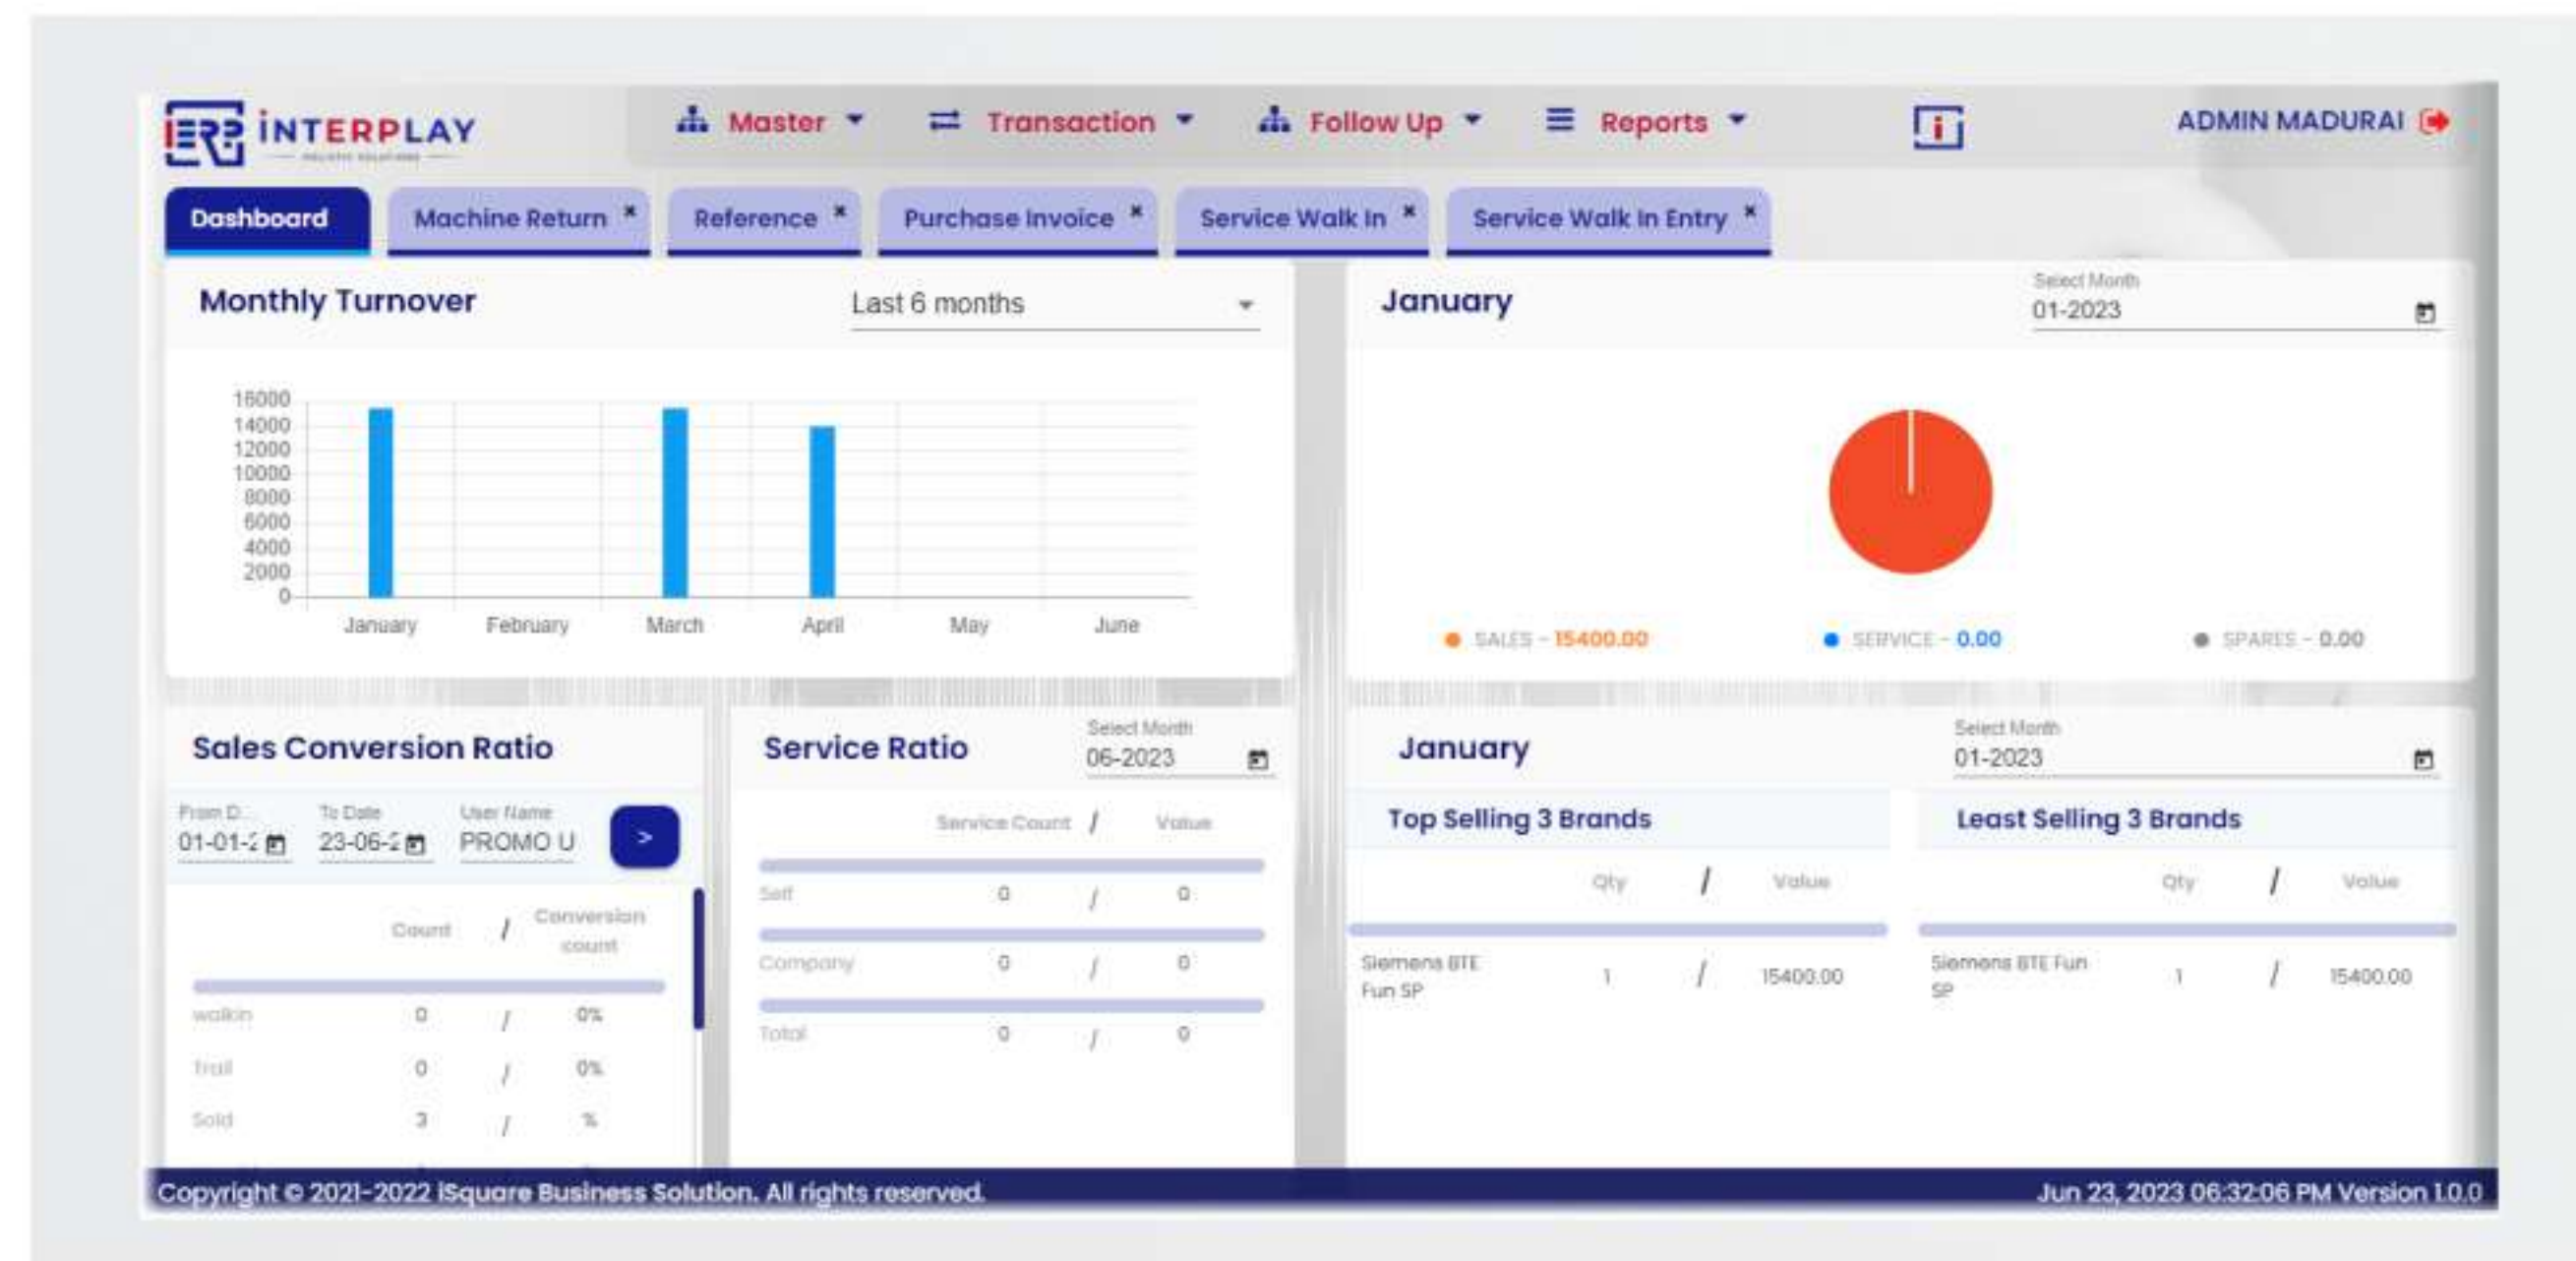

ENT care "Hearing Aid Consultant"

# The Glimpse of our Work

The screenshot shows the 'Add Client Details' form. It includes fields for Client ID, Name, Date of Birth, Age, Sex, Branch, Address, Area, City, State, District, Pincode, Mobile, Alternate Mobile, Landline, Aadhar No., Profession, E-Mail, Reference, and Reference Number. There is a 'SELECT IMAGES' button and a 'Drop your images here!' area.

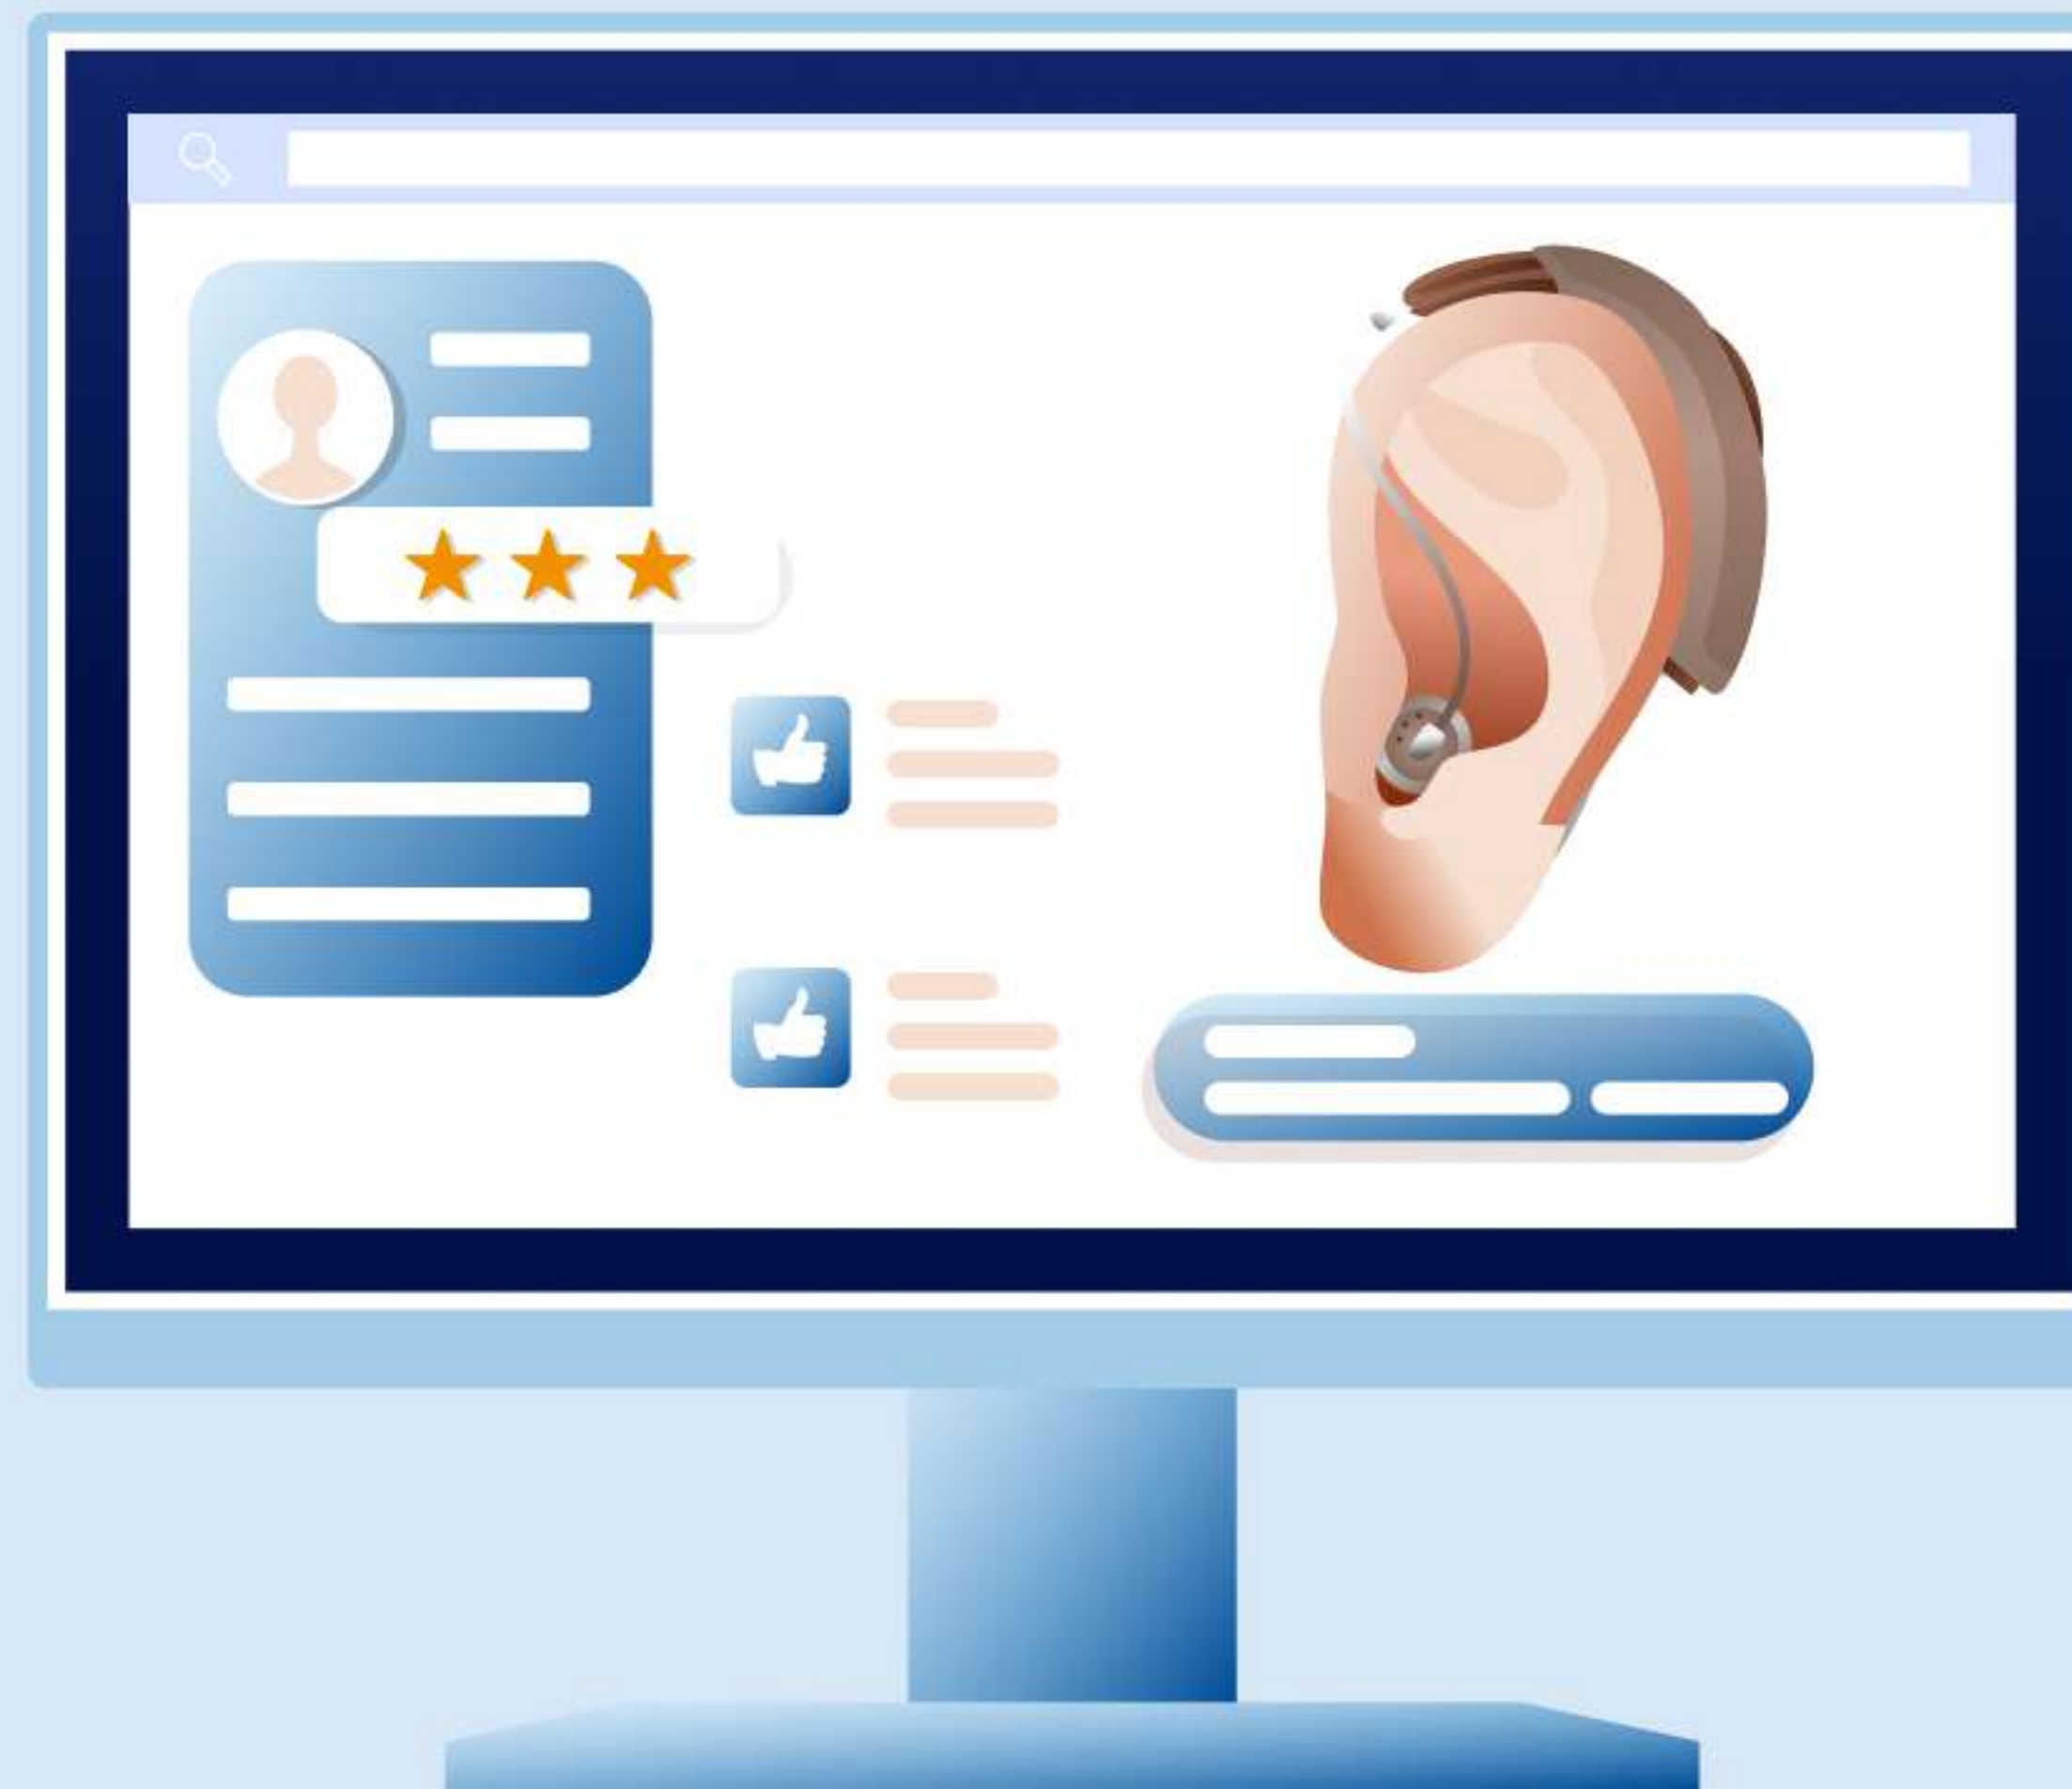

The screenshot shows the 'Service Walk In Entry' form. It includes a search bar for Client ID/Name/Mobile/SRF, buttons for 'NEW SERVICE' and 'NEW CLIENT', and a list of clients with their details (Name, Sale No, Sale Date, Mobile No, Service No, SRF No, Type, Warranty, Service Advance Amount, Service Walk in Type, Model, Brand, Serial No, Sold Qty, Qty). There is a 'SAVE' button at the bottom.
